PROJECT PHASE - I

OBJECTIVES

- To Make the students identify a problem/process relevant to their field of interest that can be carried out
- To Make them equipped to search databases and journals to collect relevant data and identify a solution
- To Plan, learn and perform experiments to verify the solution

COURSE OUTCOMES:

At the end of the course students will be able to

CO 1: Identify the field of interest towards research/industrial problems CO 2: equip the students to search and think about logical solutions
