Batch V

Total Number of Students: 31

Date: 12-02-2024 to 17-02-2024

Trainer Name: Mr.A.M.Sasi Kumar, Software Trainer and Developer,
Phoenix Softech, Madurai.

REPORT

The Department of Computer Science and Engineering, Kamaraj college of Engineering and Technology is conducted a Value Added Course on **Mastering the Art of Coding Batch V** in association with **Phoenix Softech, Madurai** for II year CSE and II year ADS students from 12-02-2024 to 17-02-2024. Resource person Mr.A.M.Sasi Kumar, Software Trainer and Developer, Phoenix Softech, Madurai has handled the sessions.

The resource person conducted the course in interactive manner. He addressed that the course to emphasize developing and solving problems using the C programming. The six days programme was really an eye opener session to enhance coding skills through C programming.

Introduction to C Programming basics concepts were demonstrated on Day 1. Various Control Flow, Function Pointers and Recursion were demonstrated on Day 2. On Day 3, Pointers to Structures and Unions, Function Pointers and Callbacks were explained with example programs. Advanced Data Structures Linked Lists, Sorting and Searching QuickSort, MergeSort, Binary search and variations were demonstrated on Day 4. File Operations in C such as Sequential and random file access, Binary file I/O and Error Handling were demonstrated on Day 5. Students were grouped and assigned with real time projects to assess the students performance. Student presentation on the assigned project is scheduled on Day 6. Students implemented the projects. Based on their performance, they were assessed and the grades were given. Students feedback was collected for all the six days and they have felt it was an informative session.
